

Microsoft Edge for Business: An industry-leading secure enterprise browser

The browser is where users, data, and AI meet

Shadow AI magnifies existing data-loss risks

80%
of cyber attacks are
intended to steal data.¹

78%
of employees using AI rely on
non-approved AI tools.²

86%
of organizations **lack visibility**
into data shared with AI.³

The Edge for Business difference

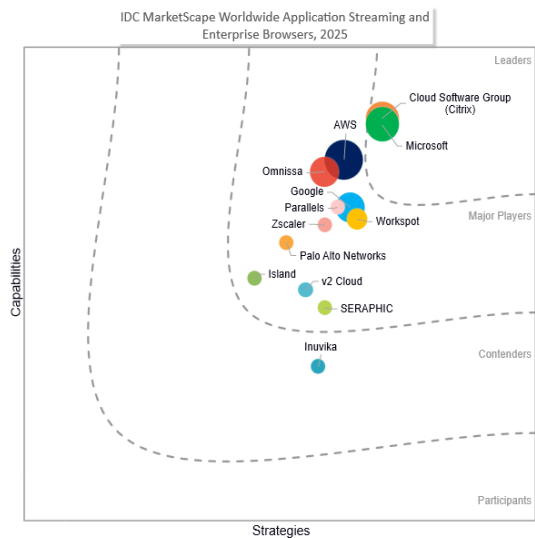

- 01** Enterprise-grade security and AI built-in
- Microsoft 365 Copilot, Entra, Purview, Defender for Endpoint, and Intune natively integrated

- 02** Seamless experience
- For admins (inbox on Windows, same management tools)
 - For employees and contractors (familiar & trusted, no training needed)

- 03** No extra cost—it's the enterprise browser you already have
- Licenses: Microsoft 365 E3, E5, Business Premium*
 - Security connector framework

Microsoft named a leader in the IDC MarketScape:

Worldwide Application Streaming and Enterprise Browsers 2025 Vendor Assessment
